

20 Year Limited Warranty

The vinyl coating on your Iron World Chain Link and Pipe is warranted not to crack, chip, or peel from the date of sale to the original purchaser, subject to the following conditions:

1. The defective material must be delivered by the original purchaser with all freight charges prepaid to our factory for examination within the stated warranty period.
2. Such examinations must disclose that, in Iron World Mfg judgement, the material has become defective under normal conditions. Iron World Mfg does not warrant products that become defective by accident, alteration, neglect, abuse, misuse, improper service by unauthorized persons, or by damage caused by flood, fire, as well as acts of God.
3. Iron World Mfg obligation is limited to re-coating defective portions of the material. The warranty does not obligate Iron World Mfg to provide any service and/or labor to replace the fence, transport the fence, or provide any extra materials.
4. The Limited warranty does not apply to any nonconformity in portions of rails, posts, or other systems altered during installation. Iron World recommends the following procedure when cutting any material:
 - Remove all metal shavings from the cut of the surface.
 - Apply a sufficient amount of zinc-primer to completely cover the cut portion or drilled hole.
 - Apply two thorough coats of matching finish spray.

Non-Compliance with this procedure will negate Iron World's limited warranty.

5. This warranty is non-transferable.
6. This warranty only applies if original purchaser registers with Iron World and returned to our corporate office.
